

There's no
substitute for
the brand you
know and trust

3M™ Promogran Prisma™
Collagen Matrix with
ORC and Silver

When the care you give has to count, there's no substitute for the performance of Promogran Prisma Matrix.

- Collagen alone is particularly effective against matrix metalloproteinases (MMPs), but has a limited effect on elastase activity
- In vitro studies demonstrated that the combination of Oxidized Regenerated Cellulose (ORC) and collagen materials had a greater effect in reducing both MMP and elastase activity than collagen alone¹

A medical prescription form titled 'MEDICAL PRESCRIPTION FORM'. It includes fields for NAME, ADDRESS, AGE, and DATE. The prescription is written in cursive: 'Rx Promogran Prisma Matrix the key difference is ORC'. There is a checked box for 'DISPENSE AS WRITTEN' and a signature 'J.D. Smith' with the word 'Signature' underneath. At the bottom, it says 'Refill 0 1 2 3 4 PRN'.

3.4x
more likely to achieve
complete healing²
(OR = 3.4, 95% CI [1.15, 10.1], $p = 0.027$)

Please mark “Dispense as written” on all of your 3M™ Promogran Prisma™ Collagen Matrix with ORC and Silver orders

Promogran Prisma Matrix is now indicated for use with Solventum™ V.A.C.® Peel and Place Dressing*

3M™ Promogran™ Matrix Family of collagen dressings are uniquely formulated with Oxidized Regenerated Cellulose (ORC) and demonstrated effective through multiple clinical studies including Randomized Controlled Trials (RCTs) that were systematically reviewed in meta-analysis.²

These studies have shown the use of Promogran Matrix Family of collagen dressings:*

- Are cost effective and have the potential to lower the total cost of treatment³
- Can significantly increase the number of wounds closed²
- When used early in wound management, may lead to improved success rates⁴⁻⁶
- When Promogran Prisma Matrix has been used, it has been shown to lower the rate of withdrawals due to wound infections in an RCT.⁵ The dressing is known to provide an effective antibacterial barrier against common wound pathogens in vitro due to the antibacterial properties of silver.⁷

Promogran Prisma Matrix is the only collagen dressing indicated for use under Solventum™ ActiV.A.C.™ Therapy Unit.

Ordering information

3M™ Promogran Prisma™ Collagen Matrix with ORC and Silver

Item Code	Size	Each Carton/Box	HCPSC Code
MA028	4.34 sq. in. hexagon	10 ea/ct - 4 ct/bx	A6021
MA123	19.07 sq. in. hexagon	10 ea/ct - 4 ct/bx	A6022
MA032	3/8" x 3/8" x 12-5/8" rope	6 ea/ct - 4 ct/bx	A6024
