Who We Are

ADDEV Materials Healthcare is an FDA registered, ISO 13485:2016 certified contract manufacturer with expertise in printing, die cutting, and clean room manufacturing **disposable medical devices, engineered components, and labels.**

Healthcare Markets

As a leading printing and converting contract manufacturer, ADDEV Materials provides expertise and sustainable materials solutions for Medtech OEM's, contract manufacturers, and health care businesses involved with:

Ostomy

Wound Care

Packaging

Pharmaceutical

Patient Monitoring

Cosmetics

Wearables

Health & Wellness

Our Locations

Located in Menomonee Falls, WI, ADDEV Materials Healthcare combines the expertise and capabilities of 4 additional ISO 13485:2016 certified ADDEV Materials sites for healthcare manufacturing.

- ▶ **US** - Menomonee Falls, WI & Pittsburgh, PA
- ▶ **UK**
- ▶ **France**
- ▶ **Germany**

Capabilities

- ▶ Digital & Flexographic Printing
- ▶ Precision Rotary Die Cutting
- ▶ Flatbed Die Cutting
- ▶ Laser Die Cutting
- ▶ Cleanroom Manufacturing
- ▶ Laminating
- ▶ Slitting
- ▶ Spooling
- ▶ Packaging

Certifications & Qualifications

- ▶ ISO 13485:2016 Certified
- ▶ ISO 9001:2015, 14001:2015 Certified
- ▶ ISO Class 7 & 8 compliant Cleanrooms
- ▶ FDA Registered
- ▶ cGMP Compliant
- ▶ Solventum Premier Converter

YOUR HEALTHCARE MANUFACTURING PARTNER

BDK is a world class ISO13485 certified material converter offering a turnkey medical device manufacturing service with Class 7 cleanroom facilities. With over 65 years experience, we support our customers from concept through prototyping, trials, validation and volume production.

Capabilities

- Prototyping
- Product Development
- Rotary converting
- Flatbed converting
- Slitting
- Printing
- Multi layer lamination
- Island placement
- Heat sealing
- Primary & secondary packaging
- Control of sterilisation

Markets Served

- Wearable Devices
- Diagnostics
- Stick to Skin
- Wound Care
- Mobile Cardiac Telemetry
- Ostomy
- Smart Health
- Health & Wellness

Custom Converting That's All About You

Since 1968 Converters, Inc. has been a leader in the converting industry. From simple wound care products to complex, wearable medical devices, our solutions enhance product performance and increase manufacturing efficiency. Whether you're looking to bond internal components or attach devices to skin, we can assist in developing solutions that exceed expectations.

Converters, Inc. offers Custom Die Cutting, Precision Tape Slitting, Laminating, and Prototyping services for medical device manufacturers and the healthcare industry.

**Your Device,
Our Adhesive Solution,
Their Best Life**

Custom Adhesive Solutions, Unmatched Manufacturing Flexibility.

Breaking Constraints

- Custom production lines
- Flexible solutions to meet your criteria
- Unimaginable customer service
- No quantity constraints, adaptable to any batch size
- QA team for every order no matter the quantity

Precision Engineering

- In-house R&D team driving innovation
- Prototyping and development support
- Customized production workflows
- Seamless device integration
- Expert engineering collaboration

Global Reach

- Manufacturing facilities in Israel and the United States
- European Distribution Center
- Guaranteed Supply chain continuity
- Efficient production workflows
- Rapid global delivery

Key Benefits

- ✓ **Tailored Manufacturing Lines** - Custom workflows for every scale of production.
- ✓ **Advanced Capabilities** - Laser die cutting, flatbed die cutting, rotative die cutting, lamination, assembly and much more all in certified class 7 and 8 clean rooms.
- ✓ **Global Presence** - Manufacturing facilities in Israel and North America, with distribution centers in Europe.
- ✓ **Certified Quality** - ISO 13485-certified, FDA-compliant, with rigorous QA oversight.

We are a turnkey converting, packing, and printing company for medical and commercial applications.

FabriTEQ can turn your complex medical device design into a high quality, market-ready, fit-for-purpose product. Our highly experienced engineers provide a variety of high-tech converting, printing, and packaging solutions. When you need full service medical device manufacturing, packaging, and printing our team can bring your product to life.

Founded in 2014 our staff has over 100 years of combined experience in converting, packaging, and printing. We look forward to collaborating with you to come up with creative and innovative solutions for your medical and commercial needs in the industry.

FabriTEQ is headquartered in Knoxville, Tennessee at the foothills of the Great Smokey Mountains in Knoxville, Tennessee. We operate a state-of-the-art manufacturing facility that is registered with the FDA for Medical Device manufacturing, we are certified to ISO 13485:2016 standards. All our clients: from healthcare suppliers to food and beverage manufacturers enjoy the same uncompromising quality and compliance.

As a certified ISO Class 8 Clean room for manufacturing and packaging of healthcare products. Our capabilities include 8-color flexographic printing and converting. Environmentally controlled warehouse. Multi-station converting presses, a packaging press, and a horizontal packaging machine. All of this allows FabriTEQ to provide value added vertical integration and provide the turnkey process to meet our growing customers' needs.

Overview

Marble Medical and UFP MedTech have partnered to advance the development of stick-to-skin applications and finished medical devices. With over 30 years of expertise, Marble Medical specializes in creating stick-to-skin solutions using Solventum specialty ISO 10993 biocompatible adhesives. By joining forces with UFP MedTech, we now offer comprehensive capabilities to develop, package, and sterilize finished products for the medical market.

Medical Materials

- + ISO 10993 adhesives
- + Rubber based adhesives
- + Acrylic adhesives
- + Hydrocolloids
- + Silicones

Capabilities

- + ISO 13485 and FDA Registered
- + High-speed rotary die cutting
- + Flexographic printing
- + Narrow width slitting
- + In-line final pack

Applications

- + 24, 48, 72 hour and 28 day wear
- + Surgical drapes and covers
- + IV securement
- + Wound care
- + Catheter securement

UFP MedTech operates 20 manufacturing locations worldwide, supported by 5 dedicated R&D centers, designed to bring your medical products from concept to full-scale production. We specialize in a wide range of materials and processes including foams, films, fabrics, adhesives, injection molding, and extrusion.

Medical Materials

- + Reticulated PU foams
- + Closed-cell PE foams
- + Fabrics and nonwovens
- + TPU, LDPE, HDPE, EVA, TPE
- + Barrier and insulation films

Capabilities

- + ISO 13485 and FDA Registered
- + Cleanroom assembly
- + Compression molding
- + Sewing and lamination
- + Thin film welding

Applications

- + Wound care
- + Infection prevention
- + Orthopedic packaging
- + Patient surfaces and transport
- + Surgical robot drapes and covers
