

Advanced fluid control, even under compression.

3M™ Kerramax Care™ Super-Absorbent Dressings deliver advanced fluid control and comfort—even under compression—thanks to **Exu-Safe™ Technology** and a bidirectional wicking layer. It absorbs and locks in high levels of exudate, protects skin, and gives patients and clinicians confidence between dressing changes.¹⁻³

Exudate. Taken seriously.

3M™ Kerramax Care™
Super-Absorbent Dressings

Advanced comfort for everyday life.

Essential features

Thin profile, soft, highly conformable^{1,2}

Can be used under compression³

Can be left in place for up to seven days¹

Absorbs and retains high levels of exudate³

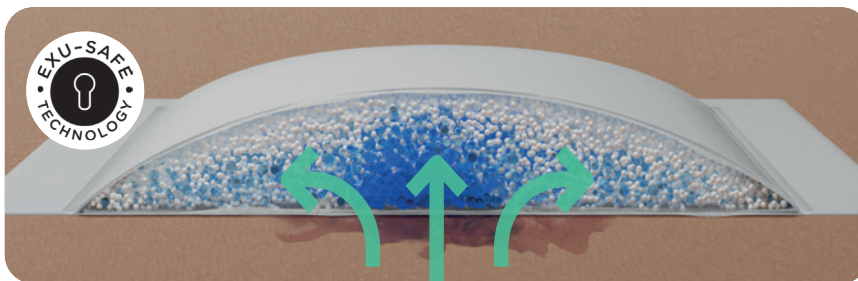

Can be folded²

Either side of the dressing can be applied to the wound

Can reduce the frequency of dressing change¹

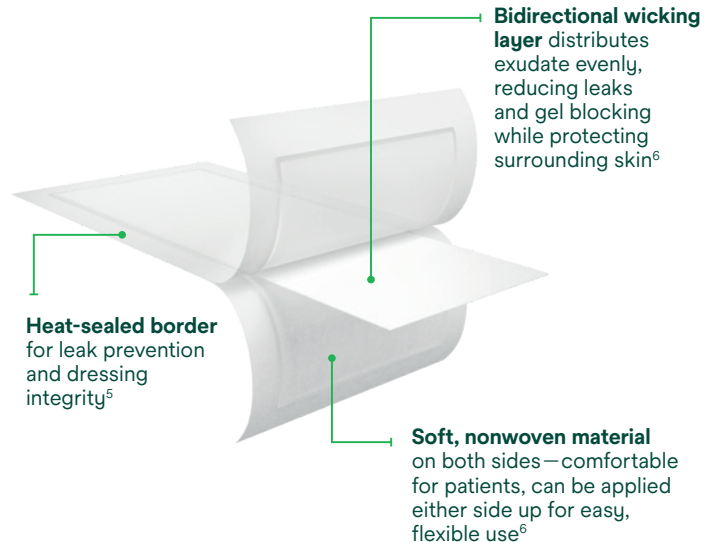

Distributes exudate evenly

3M™ Kerramax Care™ Super Absorbent Dressings with **Exu-Safe™ Technology** rapidly absorb and lock in high levels of exudate, including harmful bacteria and matrix metalloproteinases (MMPs).^{*4}
